# OUR STORY SO FAR

## THE JOURNEY

What started as a small step in providing relief and rehabilitation for the victims of the Delhi Pogrom 2020, soon expanded into not just providing a dignified source of livelihood to the victim families but also an access to a quality education and healthcare. The journey of Miles2Smile Foundation has so far been a roller coaster ride to us all. We will try to restore every single precious smile even if we have to cover all the miles for it.

## OUR MISSION

There exist solely a single curve that sets everything straight-"Smile". The most important thing which helps us move on and forget our scars after something disastrous has happened, is internal joy which ultimately brings smile on the face. Smiles are truly precious. Mother Teresa once said, "Peace begins with a smile. Smile five times a day at someone you really don't want to smile at; do it for peace". A smile is not a superficial gesture that starts and ends on the face; it comes from the heart and touches the heart of the recipient. Love and peace can work wonders. When there is love and compassion, there is no room for hatred. Today, people fight with each other to prove their superiority. If, instead of promoting hatred for each other, we would have made this mantra of our lives, the world would be a better and a happier place to be in. Smiling is powerful. It can change millions of lives for the better. In past few days the countrymen have forgotten to smile since it has been troubled with plethora of issues. Be it poverty, illiteracy, malnourishment, healthcare issues or troubles related to communal violence, they all have taken away the smile. In these troubled hours, our role either as an individual or as a collection of consciousness becomes ever imperative. We work on two lines. "We are ready to cover all the miles to restore a single smile" and when we do so, "we will Build Back Better".
